MATH KANGAROO 2022 TESTING TIMES

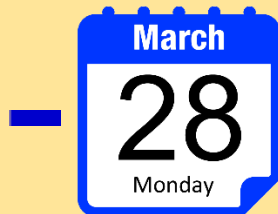

At Centers In-person testing

Log into your MK user account to see details about testing time and location

At Centers Online testing

Contact your Center Manager for details about online testing day, time and the proctoring method

At State Virtual Centers (Individual Online Participation)

This testing time is for all grades and students take the test at home at any time. [How to proctor my child at home?](#)

The test will be open at 12:01 a.m. on the first day until 11:59 p.m. on the last day (CST)

Math Kangaroo will send the login and password for each online student to the email address used at registration, **one day before, or morning of, the first assigned test day**. Please check your email during this time, including your spam folder. Students can log in at any time during the above assigned days to take the **75-minute uninterrupted test**. The test must be completed independently and in one sitting.

General Online testing rules:

- Students taking the test online will sign the Math Kangaroo Honor Code regarding independent test taking without the outside help, calculator, or other resources.
- We ask that parents/caregivers act as proctors for those taking the online exam.
- Parents are allowed to help their children with the technology but not the content of the test.
- Math Kangaroo 2022 questions should be kept confidential and not shared with anyone until the announcement of winners in May, no screenshots of tests or social media posts are allowed.
- Email info@mathkangaroo.org with any testing questions.
