

May 2025

Dear Participant,

On behalf of [Wolfram Research](#), congratulations on your performance in Math Kangaroo 2025! We are pleased to help support this event by providing you with one year of [WolframAlpha Notebook Edition](#).

As the creators of [Mathematica](#), [Wolfram|Alpha](#), [Wolfram Language](#), and [WolframGPT](#), Wolfram Research is the pioneer of computational intelligence and scientific innovation. Wolfram Language powers intelligent assistants, AI systems, and tools for R&D, education, enterprise and consumer applications.

To redeem your Wolfram award please complete the webform here:
<http://www.wolfram.com/sponsorshiporderform/>

Please use the code “MathKangarooWANE525K12” in the program code field on the webform.

Access is non-transferable and may only be used by eligible awardees from this event. Awards are limited to one per person. Please note that this offer expires on March 31st 2026 and you must complete the form by that date to receive your free tech.

The Wolfram High School Summer Research Program will be held June 25th-July 12 2025 at Bentley University near Boston MA. Applicants should be age 17 or younger, mathematically advanced and interested in programming, research, and project publication under a mentor. International students are welcome, and scholarships are available. Rising freshman are encouraged to apply. For more information and to apply visit:
<https://education.wolfram.com/summer-research-high-school/>

The Wolfram Middle School Summer Camp for Girls is an interactive, workshop-based camp that introduces girls to cutting-edge programming, computational thinking and innovative tech. Program runs July 27th-August 1st 2025. For more information and to apply visit:
<https://education.wolfram.com/middle-school-camp/>

Sincerely,

Carol Cronin
