

Math Kangaroo Class Level 3-4

Patterns Handout

Welcome to Math Kangaroo!

In this lesson, we will discuss the strategy of finding and extending the patterns to solve problems. Some Math Kangaroo questions have figures that could take time to draw. So, I have provided the figures in this handout. Please print it out before the class and have it with you to work the problems along with me.

What to do before the class:

1. Prepare paper and pencil.
2. Print this student handout for webinar questions. Do not write anything in advance.
3. Allow pop-ups on your device.
4. Learn how to use chat if you would like to ask questions.

I am looking forward to seeing you in this fun and educational class.
