

In this lesson we will be experimenting and acting the problems out.

Some Math Kangaroo questions have figures that could take time to draw. We have provided these figures for the lesson in this handout. Please print it out before the webinar and have it with you to work the questions in class. Do not write anything in advance.

What to do before the lesson:

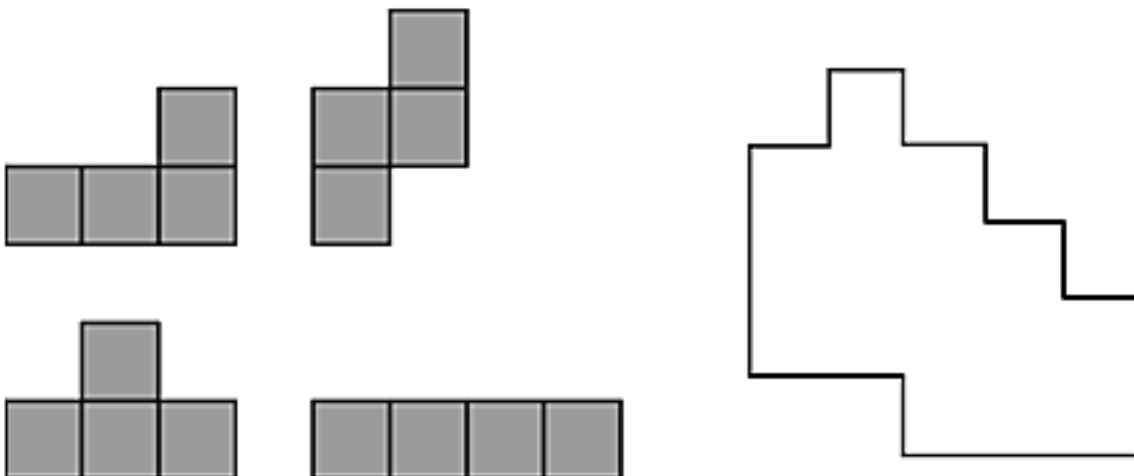

- Print this handout and **cut out the pictures**.
- You will also need 2 additional sheets of paper and scissors for the Warm-Up and problem #6.

Looking forward to seeing you in this fun and educational class.

- Your MK Teacher

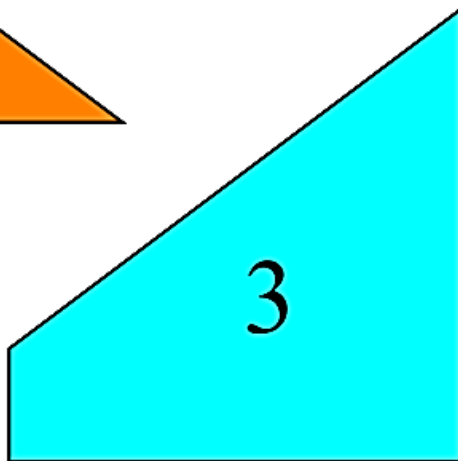

Question #1

Cut out the shapes.

Question #2

Cut out the shapes.

Question #3

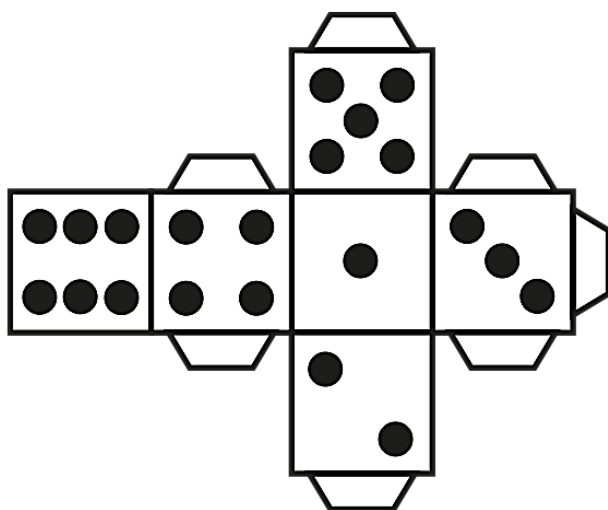

Cut out the three cup cards or you can use real cups that you have at home.

Question #4

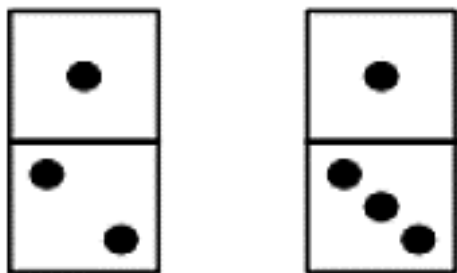

Cut, fold and glue the following net to form a die.

(If you already have a die you need to make sure the dots arrangement is the same.)

Question #5

Cut out the dominos.

Question #7

Cut out the three squares.
